

NAJAF SHEHZAD

COMPUTER SCIENCE STUDENT

Date of birth: 25/01/1997 | **Place of birth:** Lawa, Punjab, Pakistan | **Phone number:** (+92) 03061980650 (Mobile) | **Email address:** najafshehzad67@gmail.com | **Address:** i8/4 Islamabad, Pakistan, 44000 | **LinkedIn:** linkedin.com/in/najaf-shehzad 9b2987233 | **GitHub:** https://github.com/AL-NAJAF

SUMMARY

Committed and detail-focused Artificial Intelligence student, expected to graduate in 2027, with strong skills in C++ and Java, and a solid understanding of Python. Experienced in building Python-based applications and interested in solving real-life problems using technology. I aim to grow in app development while improving and growing professionally in this field.

Programming Languages:

- Python (Numpy, Pandas, Matplotlib, Scikit-learn, Tensorflow, keras)
- C++
- Java
- SQL 20

CERTIFICATE:

https://coursera.org/verify/3XCYLCB4T8S8

TOOLS PROFICIENCY:

VS Code, ChatGPT, Canva, GitHub, Jupyter Notebook, MS Office

SKILLS (PYTHON)

Artificial Intelligence (AI):

- Used NumPy for numerical computations and Matplotlib for clear data visualizations.

Machine Learning (ML):

- Applied Pandas and Sklearn for data handling, model training, and evaluation.

Artificial Neural Networks (ANN):

- Built and trained multi-layer neural networks using Keras and TensorFlow

EDUCATION

Islamabad, Pakistan **01/09/2017 – 16/10/2020**
INTERMEDIATE Punjab Board of Technical Education, Lahore, Pakistan
(CTTI) CONSTRUCTION TECHNOLOGY TRAINING INSTITUTE

Rawalpindi, Pakistan **13/02/2023 – CURRENT**
BACHELORS OF COMPUTER SCIENCE
PMAS-Arid Agriculture University Rawalpindi

PROFESSIONAL ASPIRATION

Aiming to enter APP development with a strong interest in applying AI to solve real-world problems. Dedicated to advancing my expertise and evolving professionally through practical experience.
